

Meet Maestro de A'more (aka conductor of love).

Maestro has benefited from hydrotherapy ever since he was a youngster. Today he is 3 and a half years old. He holds 3 championship titles in conformation and holds the key to my heart. Maestro is an excellent swimmer and he lives at the Spa. He swims regularly to stay in tip top shape. Swimming offers Maestro a form of non-weight bearing exercise which is beneficial on a myriad of levels. He is a heavy boned and muscular dog weighing in at 140 lbs. He is capable of swimming a mile in just over 45-minutes. Swimming offers him the equivalent to 4 times the distance he would cover if he were running on land and 10 times the resistance. The result is a SUPER fit dog who doesn't suffer from the impact of repetitive assaults to his joints and skeletal system that running that same distance would inflict. The warm water helps to loosen his muscles while the swimming helps to increase overall flexibility and cardiovascular function. The other neat thing about swimming is that he and I get to share a bonding experience swimming together and have a blast!
